**EDWARD HOSHIZAKI
DEVELOPMENT CONSULTING**

land & resource support services:

we offer assistance in many areas that lands & resource units in remote communities are looking for:

writing & reporting:

- writing proposals & applications for funding for your projects
- report writing

design:

- designing materials for regional meetings:
 - poster maps
 - reference booklets
- workplan design for your land & resources unit

mapping (GIS) setup & information collection:

- analyzing technical requirements for computers and software
- arrange ArcMap (GIS software) licenses
- map biography & data collection setup & assistance
- assembly & consolidation of spatial information for your area
- design of map layouts & layers for your ArcMap projects
- in your community implementation of mapping
- student mentoring
- digitizing, cartography & map production

training:

- arranging training plan
- coordinating courses
- in community GIS training
